EU-China Social Protection Reform Project

---

**Component 1 macro-activities**

*European Experts*

*Senior social security lecturers*

*High level training on Social security systems and the challenge of ageing population*

**(Annual Work Plan 2016 – Macro-Activity 1.5)**

**TERMS OF REFERENCE (ToR)**

## 1. Background

### 1.1 General

The purpose of the EU-China Social protection reform project (“the Project”) is to contribute to the improvement and inclusiveness of China’s social protection system through strengthening the institutional capability for developing policies, for implementing legal and regulatory frameworks and for supervising systems of social insurances, social assistance and financial management in the area of social security. In particular, the Project’s purpose will be pursued through the following three components in relation to which specific Chinese government entities playing the role of partner of the consortium have been identified:

- i. Component 1: Consolidation of institutional capacity for social protection policy development and reforms in collaboration with the National Development and Reform Commission (“NDRC”);
- ii. Component 2: Enhancing of institutional capacity for financial management and supervision concerning social security funds in collaboration with the Ministry of Finance (“MoF”); and
- iii. Component 3: Improving of legal framework and policy for social assistance in collaboration with the Ministry of Civil Affairs (“MoCA”).

Works under each component will address a number of selected topics. They will include an **Identification phase** where will be conducted a situational analysis (macro-activity 1), the Identification and review of possible relevant EU experience (macro-activity 2) and a Discussion panel with stakeholders on the Identification phase (macro-activity 3). Other subsequent phases of the project are an **Analysis phase** (macro-activities 4 to 7) and a **Follow-up phase** (macro-activities 8 to 12)

**These ToR fall under Component 1 of the project, macro-activity 1.5, which corresponds to training study assignment to EU countries.**

## 2. Description of the Assignment

### 2.1. Overall and Specific Objectives

#### 2.1.1 Overall Project Objectives

The overall scope of the SPRP project is to further develop social equity and inclusiveness of economic development throughout Chinese society.

#### 2.1.2 Specific Objectives

The project Grant application form notably specifies that “A training/Study Assignment to EU countries will be organized for (...) NDRC’s top managers or other relevant stakeholders on the EU Best Practices which fit to the China context that will be defined as priority by the NDRC and other relevant stakeholders.”

It was decided that a training course dedicated to the challenges for pension schemes of an ageing population – topic 1.3.7 – which was retained as a key issue in one of the project proposed pilot sites (Shanghai city) would be organized in Spain – Madrid and Valladolid - from 19 June to 2 July 2016 and that some 24 high level officials from NDRC Headquarters and Provincial representations would attend the training.

The program agreed upon with NDRC is attached as an annex. The specific objective of the current assignment is:

- (i) To prepare and deliver lectures on different topics: Active ageing, sustainability of pension systems, replacement rates of benefits, presentation of pensions reforms in various countries, the demographic effect of ageing on healthcare and poverty etc.

### 2.3 Requested Services

More specifically, the Experts will, in close cooperation with the Course coordinator, Ms. Lucía Ortiz (Deputy Director of International Social and Labour Relations of the Ministry of Employment and Social Security) prepare a lecture including training materials (power point presentation) to be delivered over a full training session (one/two hours) including time devoted to Discussion (Q&A). There will be simultaneous interpretation to and from Chinese language.

The lecture should address the topic assigned to the session considered. It should present considerations related (where appropriate) to the experience in the incumbent’s country as well as, to the extent possible, example related to other, notably European, countries.

The experts, assisted by Expertise France, are expected to make necessary travel arrangements to reach Madrid or Valladolid – course venues – on time for delivering their training.

### 2.4. Expected Results

The result of the assignment will be for NDRC and other Chinese stakeholders a better comprehension of the topics considered in the training sessions so that they may upgrade their capacity to contribute to the design of related social security reform components in China.

The outputs of the assignment will be:

- Training materials used for the presentation of the lectures
- A short mission report.

### 3. Experts’ Profile

The expert’s profile include a (i) senior consortium representatives and (ii) lecturers specialized on social security reform. The number of trainers is not fixed and the Course coordinator will try to select the candidates that fulfill the below criteria, provided that it does not have an impact on the overall coherence of the training.
